Service Location: \_\_\_\_\_

Service size: \_\_\_\_\_

This TEMPORARY permit is for a water service installation at the location mentioned above. **The undersigned agrees to the following conditions:**

- 1.) Install type k copper from main to curb box 5 ft. deep
- 2.) Install curb box on property line with shut off
- 3.) Install corporation with saddle for tap on water main
- 4.) Install shut off valves before (street side) and after meter
- 5.) Install meter in horizontal position that can be easily read and/or changed out.
- 6.) The initial water meter must be purchased by the owner. Cost of meter by size was established as per Resolution 57-2012. A meter rental is charged on each 6 month billing according to the size of the meter. After initial purchase, the Town maintains or replaces the meter as needed.
- 7.) Meter and remote must be kept readily accessible for the meter reader
- 8.) Service line and curb box to be maintained by the owner
- 9.) To accept and abide by all provisions of the Water Code of the Town of Greenport and of all other pertinent ordinances or regulations that may be adopted in the future. (see attached Town Code)
- 10.) To notify the Water Department when ready for inspection.  
**No work is to be covered prior to inspection.**
- 11.) To provide **As-Built Plans** as part of this permit. Drawings must clearly show water line placement, measurements and easement area.
